

# Sound Healing for Emotional Transformation and Spiritual Connection

Saturday • April 11, 2020 • 8:30am - 12:00pm MDT

## From Master Mingtong:

"In this powerful and challenging time we all need healing and connection. Together, let's dedicate all of April's practice, meditation, and other livestream programs to global healing and awakening.

"The more people join, the more power and benefit we can activate and embody. The more we engage, the more we benefit ourselves throughout this time of need.

"We'd like to invite you to co-create this healing and awakening vision by joining us and *sharing* these free livestream opportunities for teaching and practice.

"I envision 5000 participants Saturday and 1000 participants every day for Qigong practice and meditation on Chi-TV – with a reach and impact like the medicineless hospital in China.

"During this potent time, our goal is to join *all* spiritual communities to generate a healing field as a tipping point for global healing and awakening in this powerful time while the portals are open wide. Will you join us?"  
—Master Mingtong Gu
